

## ENVIRONMENTAL FEES DIVISION FEE CHART

The Environmental Fees Division administers and collects fees for eight fee programs.

Six of the fee programs are administered under the Health and Safety Code (H&SC) in cooperation with the Department of Toxic Substances Control (DTSC). There fee programs are:

1. **Hazardous Waste Facility Fee** (fee commenced 7/1/86) – Hazardous Waste Control Account (HWCA)  
The Facility Fee applies to an owner or operator of a site that is permitted by the Department of Toxic Substances Control to dispose, treat or store hazardous waste. Also included in this program are Standardized Permit and Postclosure Permit fees. The fees vary according to the permitted level.
2. **Hazardous Waste Disposal Fee** (fee commenced 7/1/85) – Hazardous Waste Control Account (HWCA)  
The Disposal Fee applies to the disposal of hazardous waste to land in California. The Disposal Fee is paid directly to the Disposal Facility where the waste is submitted for disposal. The fee is determined by the type and total tonnage of waste disposed of and returns are only required to be filed by the Disposal Facilities.
3. **Hazardous Waste Generator Fee** (fee commenced 7/1/86) – Hazardous Waste Control Account (HWCA)  
The Generator Fee applies to every person who generates five or more tons of hazardous waste in California within a calendar year for a specific site. This includes recycled waste and waste sent outside California for disposal. The fee is determined by the total tonnage of waste generated per site. If the Facility Fee is being paid for a site, the Generator Fee does not apply. Before January 1998, a Waste Reporting Surcharge was also due for each generator site.
4. **Hazardous Waste Activity Fee** (fee commenced 7/1/89) – Hazardous Waste Control Account (HWCA)  
Activity Fees are based upon specific activities performed by the Department of Toxic Substances Control. The fees are assessed upon notice to the Board from DTSC that a fee is due and are the result of an action requested by the fee payer, such as a new permit, permit modification, variance or site mitigation assessment fee.
5. **Hazardous Waste Tiered Permitting Fee** (fee commenced 1/1/93) – Hazardous Waste Control Account (HWCA)  
The Tiered Permitting Fee applies to owners or operators of sites that treat hazardous waste but due to the volume of waste treated or waste stored, do not warrant a full facility permit. Fees for Transportable Treatment Units are also included in this program. The fees vary according to the type of permit issued by the Department of Toxic Substances Control.
6. **Environmental Fee** (fee commenced 7/1/89) – Toxic Substances Control Account (TSCA)  
The Environmental Fee is a fee on corporations in industry groups that use, generate or store hazardous materials or that conduct activities related to those materials. It applies to all corporations with 50 or more employees that are employed more than 500 hours in California during a calendar year. The fee is based upon the total number of employees.

In addition, the Environmental Fees Division works with the California Department of Health Services in administering a fee program under the Health and Safety Code:

7. **Occupational Lead Poisoning Prevention Fee** (fee commenced 1/1/91) – Occupational Lead Poisoning Account (OCLP)  
The Occupational Lead Poisoning Prevention Fee applies to employers in an industry where there is evidence of a potential for lead poisoning. The fee is based on the employer's Standard Industrial Classification (SIC) code and the number of employees employed in California more than 160 hours in a calendar year.

And finally, the Environmental Fees Division collects fees in cooperation with the California State Lands Commission for a fee program under the Public Resources Code:

8. **Ballast Water Management Fee** (fee commenced 1/1/00) – Exotic Species Control Fund (ESCF)  
The Ballast Water Management Fee addresses the problem of the introduction and spread of nonindigenous aquatic species into the state waters of California. The fee applies to each vessel that enters a California port with ballast water loaded from outside the Exclusive Economic Zone (EEZ).

FACILITY FEE (HF) H&SC 25205.2 & 25205.4										
CATEGORIES	1994	1995	1996	1997	1998	1999	2000	2001	2002	2003
